WORK HISTORY

NOVEMBER 2009 – PRESENT:

LSC Psychology, Sydney NSW, Australia (Clinical and Forensic Psychologist): Self-employed in private practice. Role includes the provision of forensic and clinical reports as well as therapy with clinical, forensic and DIBP clients. Reports include mental health assessments, pre-sentence reports, risk assessment reports for violent and sexual offenders, immigration reports, assessment of family violence, medico-legal and civil reports.

DECEMBER 2014 – PRESENT:

Pinnacle Rehab, Sydney, Australia (Clinical and Forensic Psychologist): Independent contractor writing psychological capacity reports for workers compensation matters.

APRIL 2013 – APRIL 2014:

Just Psychology (Clinical and Forensic Psychologist): Self-employed private practitioner working with clinical and military clients. Treatment provided for a broad

range of clinical and non-clinical issues, including workers compensation matters.

OCTOBER 2011 – MAY 2013:

The Veterans and Veterans Families Counselling Service (Forensic Psychologist): Individual treatment with veterans. Strong focus on treatment of PTSD, Major Depressive Disorder, Generalised Anxiety Disorder, substance abuse, violence and family/couples interventions. Intake and case management was also a component of this job as was research and management.

NOV 2008 – APRIL 2012:

The Sydney Clinic, Bronte, NSW, Australia, (Forensic Psychologist): Group and individual therapy with drug and alcohol clients as well as mood disorders. Intern management and supervision.

DEC 2007 – MAR 2008:

University of Western Sydney, NSW, Australia (Research Assistant): Research for ongoing project on premenstrual change in young women.
